EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science | CGPA: 8.80

Aug 2023 – May 2027

Queen Mary's School, Tis Hazari

Class XII: 93.4% | Class X: 94.2%

May 2023 & May 2021

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, TypeScript, SQL
- **Web Technologies:** React.js, Tailwind CSS, Next.js, Monaco Editor, Node.js, Express.js, REST APIs, JWT, bcrypt
- **Databases:** MongoDB, MySQL, Redis
- **AI & Cloud:** LLM API Integration, Prompt Engineering, Vercel, Render, CI/CD, AWS (EC2, IAM, S3, VPC, Cloudfront, CloudFormation, API Gateway, RDS, CloudWatch, ELB, DynamoDB)
- **Tools & Fundamentals:** Postman, VS Code, Git, GitHub, DSA, DBMS, OOPs, OS, CN

WORK EXPERIENCE

Victorious Infotech Pvt. Ltd.

Noida, Uttar Pradesh

Software Development Engineer (SDE) Intern

Apr 2026 – Jun 2026

- Engineered full-stack web features using React.js, Node.js, and Express.js, improving page speed by 30% and reducing server latency by 20%.
- Architected scalable RESTful APIs handling 1,000+ daily requests with 99.9% uptime, ensuring reliable communication between services.
- Established Jest unit tests (85% coverage), maintained GitHub Actions CI/CD pipelines, and delivered 3 sprint features on schedule within Agile workflows.

PROJECTS

TestPilot AI | [Link](#)

January 2026 – March 2026

React, Node.js, MongoDB, Gemini API, Monaco Editor, BullMQ, JWT

- Architected a full-stack MERN application that generates AI-powered unit tests (Jest, Mocha, PyTest, JUnit) with edge-case coverage, secured with JWT authentication, and built a scope-based output validation pipeline with auto-regeneration that cut invalid test cases by 85% across 500+ generations.
- Implemented a BullMQ background job queue with per-user rate limiting (10 generations/hour) and exponential-backoff retries, enabling reliable concurrent request handling without API rate limit violations.

Flagify | [Link](#)

Jan 2026 – Mar 2026

TypeScript, Next.js, React, Node.js, Express, MongoDB, Redis

- Engineered a feature flag platform using Node.js, Express, and MongoDB for real-time toggling of 500+ flags across 3 microservices, reducing rollout time by 40%, with Python and JavaScript REST SDKs.
- Integrated Redis caching for sub-50 ms API responses (60% latency reduction, 200+ concurrent evaluations), and added Jest tests (85% coverage) and Docker containerization for consistent deployments.

RepoSphere | [Link](#)

Jan 2025 – Mar 2025

React, TypeScript, Node.js, REST API, OAuth

- Built a GitHub analytics dashboard with React, TypeScript, and REST APIs, processing 10,000+ commits across 500+ repositories with interactive visualizations.
- Implemented OAuth Device Flow authentication with server-side token storage and automatic refresh, securing 200+ user sessions, and streamlined GitHub Actions CI/CD pipelines to cut deployment errors by 70%.

ACHIEVEMENTS

Participated in 8+ hackathons across India, Global Finalist – NASSCOM Hackathon 2025 (1000+ teams), 3rd Place- SolVIT Hackathon 2025 (150+ teams)

EXTRA-CURRICULAR ACTIVITIES

Android Club | Social Media Manager

- Managed social media presence across platforms, increasing follower engagement by 35% and reach by 50%.
- Coordinated outreach for 5+ tech events, resulting in 200+ student registrations per event.

Google Developers Group (GDG) | Events Team Member

- Organised 8+ technical workshops and hackathons with 150+ average attendance, ensuring smooth on-ground execution.
- Collaborated with speakers and sponsors, handling logistics and post-event feedback collection.
